Building Solutions

A Microsoft Gold Certified Partner located in your corporate backyard. With over ten years of enterprise experience providing Turnkey Corporate Solutions to the world's largest corporations, Turnkey has built a reputation from Wall Street to Main Street that is second to none!

TCS is recognized for unparalleled development capabilities; unrivaled application integration specialists, database administrators trained and certified in MS SQL Server, Oracle, and Sybase, and highly qualified Network Engineers, Business Analysts, and System Analysts.

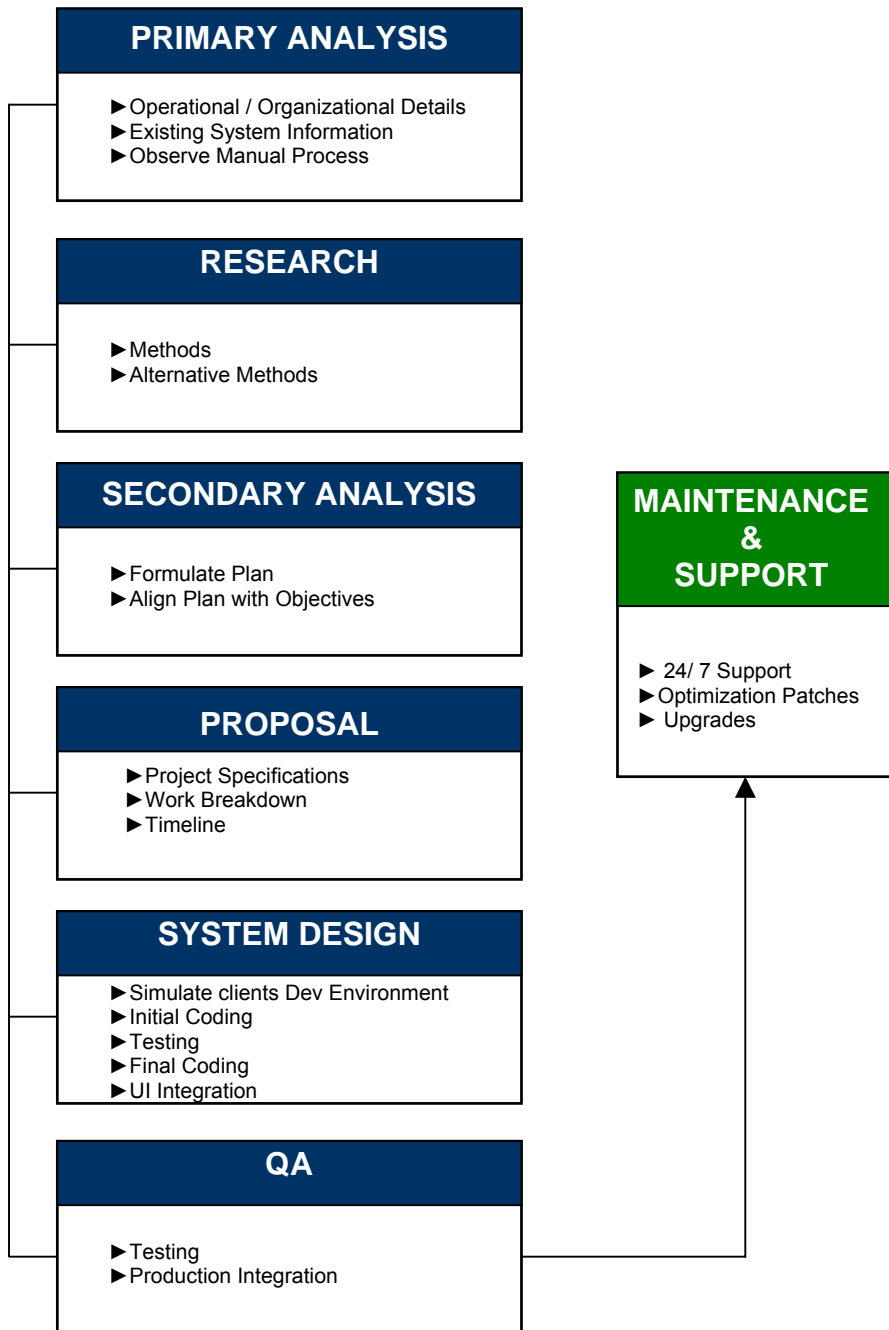

The TCS Partner and Teamwork Model insure dedication to all aspects of your project. TCS will help your management team and supporting staff do their job more efficiently, effectively, and more economical than ever thought possible.

Let TCS manage the technology so you can manage your business!

Recent Projects:

- TCS builds portal for ADP called **OneADP Service**, which will allow their clients to manage issues worldwide.
- Integrates multiple document management systems for **Sun Life Financial** and **Ontario Medical Association (OMA)**
- Solves International Unions communication issues by offering self service features to members
- Designed and developed **The Medical Center (TMC)** for medical billing, insurance claims and managing any size medical center with the help of our Electronic Medical Records (EMR)
- TCS Solves Longstanding Case Interoperability issue at a global financial institution using Global Case Management®
- For **Credit Suisse** designed and developed a Deadline Management System - Forecasting tool that spans all databases - DB2, Sybase, ORACLE, and MS SQL Server and many disparate platforms such as MVS, AS400, UNIX, NT
- Problem Tracking System - online problem tracking, assign Action Items, follow up, reporting, etc.
- Global Monitoring - monitor your jobs online real-time!
